

Dear Parents,

This week was filled with excitement, lots of learning, and much fun!

We had music with HaMorah Lucille who has always taught us fun and interesting things through her songs. This week we learned about animals in the African Continent and how important it is to save their habitat so they do not become extinct! We made a giant map of Africa and cut, colored, traced, and designed many animals and placed them safely on the map.

The children also learned about frogs with Emily from the Puddlestompers.

On Wednesday we had our very last movement class with Judy Diamond! It was great! The Bunnies took a wonderful exploratory trip to the Newton Center Playground where they looked around for and discovered the animals, insects, and plants that populate our neighborhood.

All the children in the school have been working on their Father's Day surprises for all the beloved fathers in the preschool. We have also been practicing our songs for the end of the year celebration though we do not promise anything though. You know...? We might experience a little bit of stage fright when the time comes...!

Today we celebrated our last Shabbat Party of the year. It was Happy and Lovely! The children sang the Brachot and the Shabbat songs with happy enthusiasm.

We want to express our heartfelt and huge gratitude to all of you for the lovely, heartwarming and delightful gathering you organized for all of us this past Tuesday. It was so great to spend time together, chat and enjoy each other's wonderful company.

It was a strength injecting evening which we will treasure in our hearts for a long time to come!

We wish everyone a Shabbat Shalom U' Mevorach!
HaMorot shel Gan Beth El
